

AMIT CHAULAGAIN
Senior Java Developer | Spring Boot | Microservices | AWS
Email: amit.chaulagain@example.com | Phone: +61 4XX XXX XXX
Location: Melbourne, VIC | LinkedIn: linkedin.com/in/amit-chaulagain

PROFESSIONAL SUMMARY

Senior Java Developer with 8+ years of experience designing, building, and operating enterprise-grade backend platforms. Strong background in Spring Boot, microservices, event-driven architecture, and cloud-native deployment on AWS. Delivered high-volume APIs, reduced latency by 35 percent, and improved release reliability through CI/CD automation and test

CORE SKILLS

Java 8/11/17, Spring Boot, Spring Cloud, Hibernate/JPA, REST APIs, GraphQL
Microservices, Kafka, RabbitMQ, Redis, Elasticsearch
PostgreSQL, MySQL, MongoDB
Docker, Kubernetes, AWS (EKS, ECS, RDS, S3, CloudWatch)
JUnit 5, Mockito, Testcontainers, Pact, WireMock
Maven, Gradle, GitHub Actions, Jenkins, SonarQube

PROFESSIONAL EXPERIENCE

Senior Java Developer | FinEdge Solutions | Melbourne

JAN 2022 - Present

- Led migration from monolith to 14 Spring Boot microservices serving 1.2M monthly users.
- Improved p95 API latency from 780ms to 510ms through query tuning and caching strategy.
- Built resilient asynchronous workflows with Kafka and retry/DLQ patterns, reducing processing failures by 42 percent.
- Introduced integration test suite with Testcontainers and contract tests with Pact; production defects dropped by 30 percent.
- Mentored 5 engineers on clean architecture, code reviews, and performance observability.

Java Developer | NexaTech Systems | Sydney

AUG 2018 - DEC 2021

- Developed payment and settlement services using Java 11, Spring Boot, PostgreSQL, and Redis.
- Implemented OAuth2/JWT-based authentication and role-based authorization for partner APIs.
- Automated CI/CD pipelines using GitHub Actions and Jenkins, reducing release cycle from biweekly to daily.
- Collaborated with SRE team to implement structured logging and distributed tracing.

Software Engineer | DataBridge Labs | Kathmandu

JUN 2016 - JUL 2018

- Built backend modules for HR and ERP platforms using Java, Spring MVC, and MySQL.
- Created ETL jobs for data reconciliation, improving reporting accuracy and timeliness.

EDUCATION

Bachelor of Computer Engineering
Tribhuvan University

CERTIFICATIONS

AWS Certified Developer - Associate
Oracle Certified Professional, Java SE 11 Developer

PROJECT HIGHLIGHTS

Customer Profile Aggregator Platform

- Designed an event-driven profile enrichment service consuming 25M events/day via Kafka.
- Achieved 99.95 percent service availability with auto-scaling and robust health checks.

QUALITY & TESTING CONTRIBUTIONS

- Defined backend test pyramid strategy: unit, integration, contract, and end-to-end coverage.
- Added performance baseline tests for critical endpoints to prevent regressions.
- Established release readiness checklist and rollback playbook for safer deployments.
